

# Benefits that extend past the course.

Insignia® Pro  
Fungicide

 **BASF**  
We create chemistry

## Take advantage of the new Insignia Pro rebate offer.

Commit to new Insignia® Pro fungicide as the foundation of your snow mold protection program by May 31, 2024 to receive one of the following added\* rebates:

- **Book 1 to 9 jugs:** spring rebate of \$25/jug + fall rebate of \$50/jug = \$75/jug
- **Book more than 10 jugs:** spring rebate of \$50/jug + fall rebate of \$100/jug = \$150/jug

\*In addition to the BASF Infinity Program.

## Enhanced performance against snow mold.

Insignia Pro fungicide combines two liquid snow mold control products in a convenient premix to provide enhanced control of both pink and gray snow mold.

- As an Intrinsic® brand fungicide, it provides **Plant Health Benefits**<sup>1</sup> for broad-spectrum disease control, stronger roots and higher stress tolerance to survive the winter
- Reduces fall environmental stress to promote carbohydrate production and root growth for survival during extended periods of ice cover in winter
- Comparable performance in snow mold trials to treatment combinations with 3 to 10 times the active ingredient load
- Offers a shorter re-entry interval, compared to competitors, for flexibility and convenience
- Apply with fludioxonil for additional protection under high pressure situations

### Active ingredients

Pyraclostrobin – Group 11  
Mefentrifluconazole – Group 3

For more information, contact your local BASF Turf Representative or visit [www.BetterTurf.ca](http://www.BetterTurf.ca).
