¹ Customer will qualify for one rebate level during the program period. Order between January 1 and November 30, 2025. ² Infinity maximum rebate payout is \$7,200.

Enhanced performance against snow mold.

Insignia Pro fungicide combines two liquid snow mold control products in a convenient premix to provide enhanced control of both pink and gray snow mold.

- As an Intrinsic® brand fungicide, it provides **Plant Health Benefits**¹ for broad-spectrum disease control, stronger roots and higher stress tolerance to survive the winter
- Reduces fall environmental stress to promote carbohydrate production and root growth for survival during extended periods of ice cover in winter
- Offers a shorter re-entry interval, compared to competitors, for flexibility and convenience
- Apply with fludioxonil for additional protection under high pressure situations

¹ **Plant Health Benefits** refer to products that contain the active ingredient pyraclostrobin.

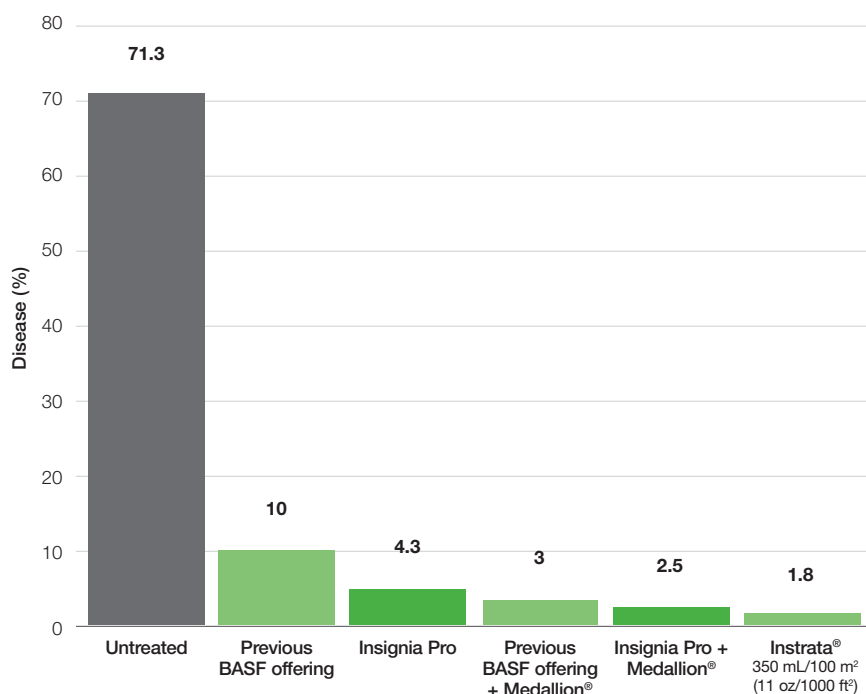

Active ingredients

Pyraclostrobin – Group 11
Mefentrifluconazole – Group 3

Insignia Pro helps improve turf health.
